## TECHNICAL DEMANDS

**Stage :** 10m x 8m

**SEE PLAN BELOW**

**Barbecue's space :** **OUR** barbecue is placed upstage. A security area is necessary all around it (marked out with trees, garlands, ...) as fire is lighted up **from the beginning of the performance** with a sweat mix of combustible materials and it will burn until we've got perfect embers to make a barbecue.

**Floor :** The show requires a flat, smooth, hard and levelled floor (**photos of the space have to be sent to the technical contact for validation**). The show can not be performed on cobbles, gravels, grass....

**Sound:** Self sufficient (1 power supply of 230Volts 16 Amp has to be provided by the Organiser).

**Lighting:** For evening performances, the organisation has to provide a total lighting of the stage.

### SPECIAL DEMANDS

**Sausages :** At the end of the show the barbecue is ready to cook sausages that we share with the audience. We ask for 3 kilos of sausages per show provided by the Organiser (depending on the audience, halal sausages might be needed). We count on you to find a nice local butcher !

**Wooden chairs :** We ask for 6 wooden chairs per show, **SEE APPENDIX 1** for details. These chairs will be used during the show and will be burned into the barbecue. (**photos of those chairs have to be sent to the technical contact for validation**).

**Set up :** *Self sufficient*, a minimum of 1 hour on the stage is required (exact timing to be defined

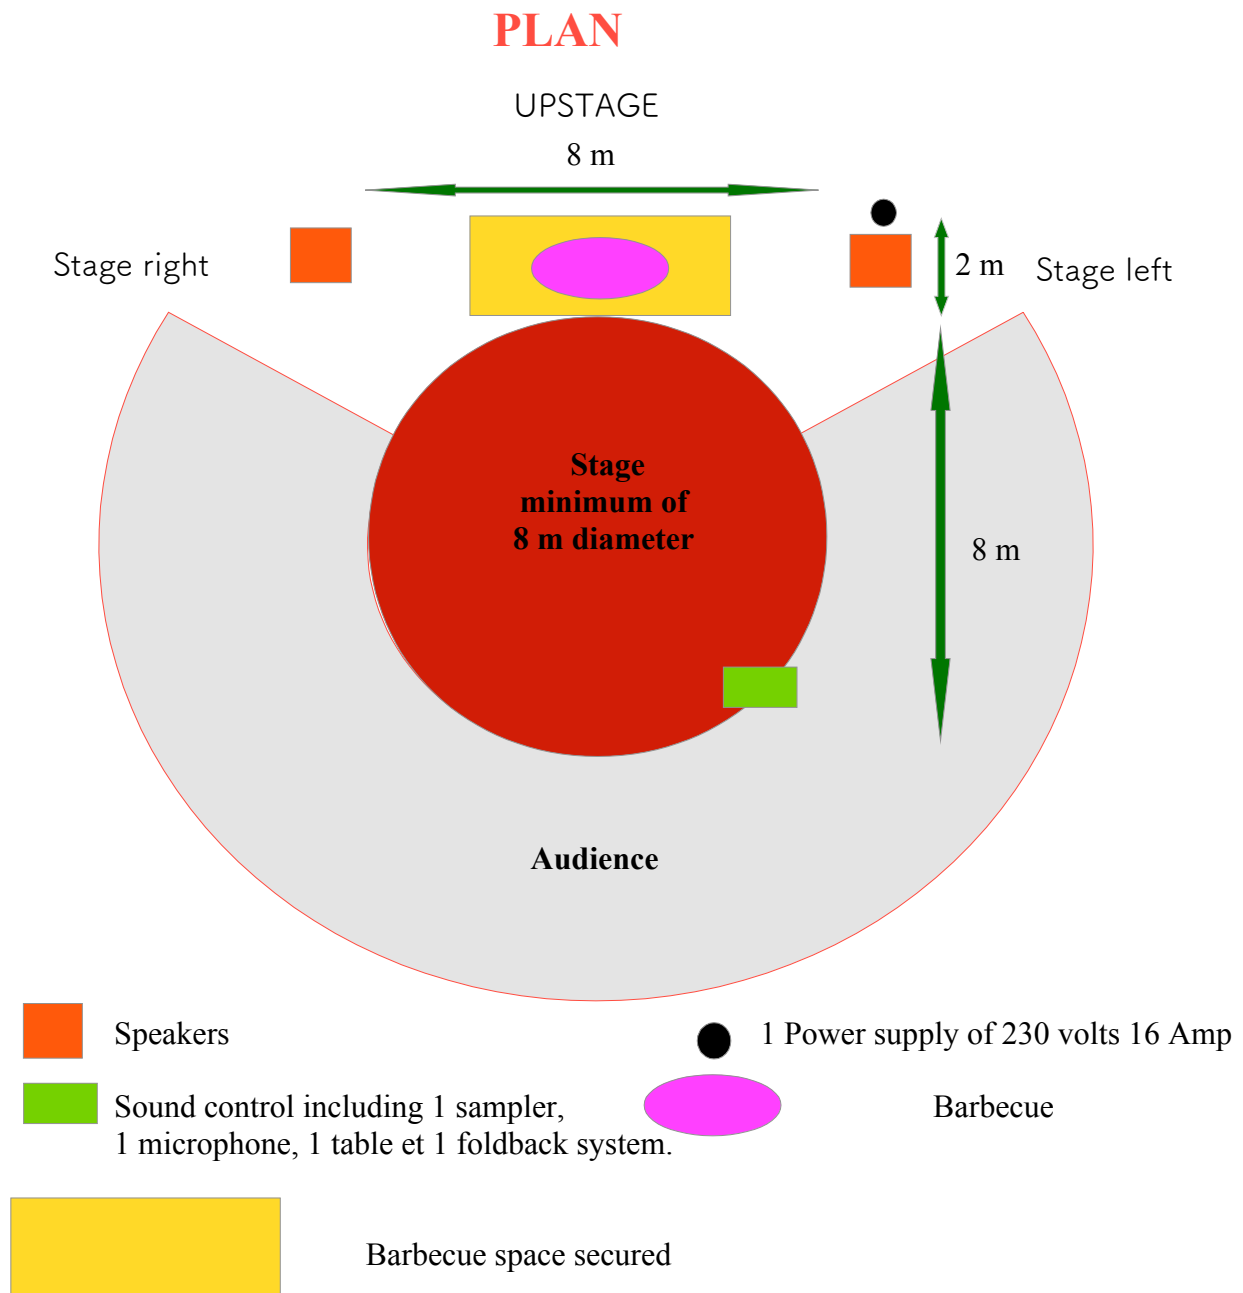

according to the place) and 1 hour 30 minutes for technical preparation of all the props.

**Strike :** a minimum of 1 hour is required (exact timing to be defined according to the place).

**Rehearsal – warming up :** a minimum of 2 hours is required (exact timing to be defined according to the place)

**Parking :** a parking spot for one van as close as possible to the stage.

**Storage :** In case of bad weather (rain, hail, hurricane, tsunami, attack of Godzilla, ...) : a storage place to protect the props will be needed. Failing that, the van of the company needs to park next to the stage.

## APPENDIX 1

### PROVIDED BY THE ORGANISER: 6 wooden chairs

Those chairs will carefully be disassembled, weakened, then put back together before being burned.

- Exclusively wooden chairs. No fabric, no foam, no plastic, no leather...
- Can be dismantled
- Exclusively second-hand (donations, second-hand shops,...)
- They do not have to look the same
- They can be in poor shape, look used but need to stand

**YES**

Mulching able to be disassembled by hand or by removing some screws.

**NO**

Mulching not able to be disassembled by hand, impossible to put back together once dismantled.

Do not hesitate to contact us for any question:
